

Therma-Tru. Where home begins.

Choosing a Therma-Tru. door means designing an inspired entrance with the confidence that it will perform for years to come.

Whether it's Classic or Contemporary – or somewhere in between – Therma-Tru offers a wide selection to complement the architecture of a home and a homeowner's sense of style.

But it's more than beauty that makes Therma-Tru the brand building professionals prefer most.* With a complete door system engineered with craftsman precision and backed by more than 60 years of industry experience, you can be confident that it will perform as exceptionally as it looks.

That's where the beauty of choosing Therma-Tru begins.

Uncompromising quality, inside and out.

Find your favorite doors.

Throughout the catalog you'll find doors organized by glass shape (largest to smallest), followed by glass design, and then texture.

TOGETHER, LET'S MAKE A WORLD OF DIFFERENCE.

We're doing our part to build a better world, every chance we get. Therma-Tru Thrive is our commitment to make safe and sustainable products, support the communities where we live and work, and leave a positive, lasting impact on the environment.

MAKING LIFE BETTER AT HOME.

Our complete door systems are built to help protect against energy loss and break-ins, helping people stay safe and comfortable at home.

More than 80% of our doors are **ENERGY STAR® qualified.***

5+ years on the leading edge of the industry, reducing harmful chemicals from our PrismaGuard paints and stains.

Our door systems are **tested for 300 lbs. of forced-entry resistance.** (AAMA 1304)

Across all our facilities, we're finding innovative ways to reuse waste materials and expand our recycling efforts.

Therma-Tru is proud to be **recognized as the 2022 Brand Leader**** by *Green Builder* magazine for offering durable, well-insulated products.

More than 50% of our fiberglass and steel door end rails are made from **over 90% recycled or scrap material**.

In 2022, we diverted over **15 million pounds** of waste otherwise destined for landfills.

BEING A GOOD NEIGHBOR.

For over 40 years, we've been proud to partner with 100+ local and national organizations to make a positive impact on the places we all call home.

Building homes for those in need with Habitat for Humanity.

Providing entryways for our nation's wounded vets with Jared Allen's Homes for Wounded Warriors.

Hosting blood and donation drives to support the American Red Cross.

^{*}Based on version 6.0 ENERGY STAR product specification for windows, doors and skylights.

^{**}Brand Index, 2022 Green Builder magazine.

Make a Smart Investment

Make a great first impression.

A front door is nearly impossible to ignore when walking into a home, and for potential homebuyers, first impressions are critical. How attractive a home is from the exterior tends to set expectations for the interior and beyond.

In fact, in a recent survey, 44% of homeowners said they were more likely to purchase a home with an enhanced entry, and one in three homeowners said they were willing to pay a premium for one.*

*Not a guarantee of investment returns, increase in value or selling price. See 2021 Therma-Tru National Home Valuation Study surveying real estate agents about perceived remodeled home value estimates based on exterior appearance. Not based on actual home sales data. Results may vary based on region, door style and home style. Study was commissioned by Therma-Tru and conducted by the Farnsworth Group, an independent research provider.

^{**}Manufacturer's Test Facility Quality Assurance Validation Program, Architectural Testing, Inc.

The Beauty of Choice

The architectural beauty of a Therma-Tru door is easy to see. With the look of real wood, rich panel details and intricate, handcrafted decorative glass designs, there are thousands of possibilities to suit the style of a home and express a homeowner's personal style.

Door Selections

Find choices in design, texture and material with many configurations available to find the ideal door system. More on pages 18–19.

Decorative & Specialty Glass

Complement any Therma-Tru door with a variety of glass shapes and designs. More on pages 26–29.

Finish Options

Complete the desired look with stain or paint. Explore a variety of colors from PrismaGuard, premium finish and Same-Day, stain on pages 260–266.

Door System Components

Have confidence in a door system made with genuine Therma-Tru components to meet the needs of many applications. More on pages 20–25.

Designed for peace of mind.

Lifetime Limited Warranties

We stand behind more parts and for longer than most other door companies because we make or specify everything that goes into our door system. A Therma-Tru fiberglass door system is backed by the industry's most comprehensive lifetime limited warranties.

Quality Testing

Our doors, glass and components undergo thorough testing to help ensure they will live up to a homeowner's toughest quality and performance expectations.

We even have our own engineering lab – approved to perform specific test methods with a third-party witness** – as part of our ongoing commitment to ensuring that our products live up to our high standards for durability and reliability.

Door Selections

Choose from our many door selections to complement the architectural style of the home from the front entry to the back patio. The possibilities are endless from fiberglass and steel materials to wood-grained and smooth textures to stainable and paintable finishes.

The Classic Craft_® Series Pages 50-113

Our premier engineered-to-last entryways showcase remarkably authentic wood grains and textures. Explore three curated collections inspired by the latest trends to bring your home design vision to life.

Fiber-Classic. Collections Pages 114-217

The industry's first fiberglass door delivers the look and feel of real Mahogany and Oak with excellent performance and value.

Smooth-Star_{® Pages 114-217}

A smooth, ready-to-paint fiberglass door that offers excellent performance and value.

Steel Pages 218-241

Bring style and affordability together to create very attractive results with our steel doors.

Pulse_{® Pages 246-259}

A contemporary series of door styles and glass designs that can be combined to make a bold statement.

Engineered to Work Together

Our complete door systems feature doors, glass and components engineered to work together to resist leaks and drafts, and help maintain energy efficiency and weather resistance.

Weatherstrip is engineered in a variety of profiles to provide the best possible fit with our door systems, helping to deliver a precise seal between the door and frame. In addition, a rot-free Therma-Tru composite door frame* delivers extra protection from the damaging effects of moisture.

Sill and bottom sweep form a tight seal against wind-driven moisture infiltration at the bottom of the door system and help channel moisture away from the home. Sill pan (recommended) adds an extra layer of protection to help keep moisture away from the subfloor.

Corner seal pads (inswing only) complete the seal between the sill cap, bottom sweep and weatherstrip to help block potential pathways where wind-driven moisture can infiltrate the bottom corner of the door system.

4 Hinges position the door to properly compress the weatherstrip to help form a tight, even seal against air and moisture infiltration when the door closes.

(recommended) engages the door and frame at three points from top to bottom for enhanced security while helping to preserve the weatherstrip's seal even under wind pressure.

Cip-lite frame (shown right) features a compression seal against weather on the outside of the door and an adhesive seal against weather on the outside of the glass. Flush-glazed glass (shown left) is built directly into the door without a Lip-lite frame, featuring a high-performance adhesive weather seal inside and out.

Composite Door Frame* featuring Tru-Guard Composite Technology

Therma-Tru₀ composite door frame featuring Tru-Guard™ composite technology provides a rot-free solution engineered to work together with rot-resistant Therma-Tru doors and components.

Tru-Defense Warranty Rider

A Therma-Tru_® door system with Tru-Defense system components is a high-performing door system backed by a lifetime limited warranty and a comprehensive Tru-Defense Warranty Rider.

Tru-Defense: The Ultimate Protection

More than beautiful doors and glass, a complete door system includes the components used to assemble it. We manufacture or specify every aspect of a complete door system. The Therma-True genuine components in a Tru-Defense door system are our premium options for long-lasting durability.

Double Your Peace of Mind

When it comes to door systems, we believe that proper installation is just as important as having the best components. A Tru-Defense door system installed by a Therma-Tru Certified Door System Installer doubles your reimbursement eligibility should an issue arise.* Look for the () icon.

^{*}The Rider does not warrant workmanship of anyone who assembles or installs a Tru-Defense door system, including Therma-Tru Certified Door System Installers, nor any damages caused by improper handling, assembly or installation.

^{**}Latch and deadbolt must meet Therma-Tru specifications.

Note: See your Therma-Tru seller or visit www.thermatru.com for details on limited warranties and exclusions.

Required Components for Tru-Defense Door System

with Therma-Tru Fiberglass Door Slab & Components

Door Frame •

Provides a solid structure for the door slab and components. Recommended: Therma-Tru Composite Door Frame

Corner Seal Pads 💠

(Inswing Only)

Fit securely behind the weatherstrip to help block wind-driven moisture infiltration at the bottom corner of the door system.

Composite Adjustable Sill 💠

Provides a solid stepping surface and forms a tight seal at the bottom of the door system to help channel moisture away from the home.

Weatherstrip *

Features a resilient design to help deliver a precise seal between the door and frame.

Bottom Sweep (Inswing Only) A dual-bulb, dual-fin design helps maintain tight contact with adjustable sill caps and creates added barriers against moisture.

Astragal

(Double Doors)
Covers the margin between
double doors to help complete
the seal against air and moisture
infiltration, with aluminum
construction for stability, holding
power and durability.

Hinges **!**

Ensure smooth operation and position the door so it creates a tight seal with the weatherstrip when closed.

Rain Guard (Outswing Only) Creates a barrier at the top of the door to protect against moisture infiltration.

Recommended Components

Multi-Point Locking System ❖ (MPLS)

Engages the door and frame at three points from top to bottom for enhanced security and sealing.

Adds an extra layer of protection to help keep moisture away from the subfloor; protects flooring by catching and draining water in the event of infiltration.

Levels of Reimbursement			
System Components	Reimbursement Eligibility	Reimbursement Eligibility with a Certified Installer	
Latch & Deadbolt (No Sill Pan)**	\$250	\$500	
Latch & Deadbolt with Sill Pan**	\$500	\$1,000	
MPLS (No Sill Pan)	\$1,000	\$2,000	
MPLS with Sill Pan	\$1,250	\$2,500	

Fiberglass Door Systems Built for Safety & Security

Protect the home and everything in it, from family and pets to valuables and keepsakes. Therma-Tru products are designed for durability and enhanced security with pieces and parts engineered as a complete system.

Did you know?

On average, a home is burglarized in the U.S. every 45 seconds.¹

More than half of home burglaries occur during the daytime.²

How do burglars enter the home?

34% Front Door³ 22% Back Door³

Therma-Tru Composite Door Frame

More reliable and up to 50% stronger on average than standard wood door frames when withstanding a simulated forced entry attempt by kicking in the door.*

- Features full-length jambs with no finger joints for more reliable performance, and a continuous composite material that will not deteriorate over time, like wood.
- Entries with a wooden door frame are more susceptible to being kicked in as compared to a Therma-Tru composite door frame, giving burglars access to your home within seconds.
- Wood jambs typically have finger joints. These areas where two pieces of wood come together are structurally weaker when compared to a single continuous material that runs the entire length of the jamb.

Scan to see our products put to the test.

^{*}Comparison of pendulum impact test results for Therma-Tru composite door frame and standard finger-jointed Pine wood door frame, both with similar pre-hung doors.

^{*}Comparison of pendulum impact test results for Therma-Tru doors in steel versus fiberglass. Visit www.thermatru.com for details.

²Source: FBI Uniform Crime Reporting Program, "2019 Crime in the United States," Table 7.

Source: www.asecurelife.com

Therma-Tru Fiberglass Door Slab

Up to 30% more resistant to kick-ins than standard steel doors.**

Features durable construction that can withstand impact by absorbing and deflecting the force.**

- Built with enhanced lock blocks to help ensure proper handleset reinforcement, combined with lock and hinge stiles that increase rigidity and stability.
- Will not dent or rust, nor will it warp, split, crack or rot.

Therma-Tru Glass

Options feature double- or triple-pane construction and include two panes of tempered glass for enhanced safety and performance.

Material Myths: Think steel is stronger? Think again.

- While many people assume steel doors are the most secure against forced entry, Therma-Tru fiberglass doors are up to 30% more resistant to kick-ins than standard steel doors.**
- Standard steel doors can dent and bow, which leads more quickly to product failure. Therma-Tru fiberglass doors feature durable construction that can withstand impact by absorbing and deflecting the force.**
- Wood doors and steel doors may weaken over time with exposure to the elements.

Decorative & Specialty Glass

A Therma-Tru door system with decorative glass can create an entrance that makes a statement — one that says the homeowner has high standards for style, quality and craftsmanship.

- Our wide array of glass designs, from simple to intricate, reflect the home design trends and homeowner desires of today and tomorrow.
- Our glass designs are researched in the market to ensure they are highly rated in consumer preference.
- Our decorative glass is handcrafted and built with all-glass bevels for premium quality.
- Numerous glass colors, textures, shapes and caming options are available to complement any door.
- All Low-E and clear glass panels are tempered or laminated to provide added safety.

Note: See your Therma-Tru seller or visit www.thermatru.com for details on ENERGY STAR qualified products.

Triple-Pane Construction

All triple-pane decorative, as well as privacy and textured, glass panels are enclosed between tempered glass, offering superior quality and thermal performance.

Internal Blinds

Enjoy the privacy and convenience of a cordless blind enclosed between glass. Control the desired level of light and privacy with the simplicity of a single handle.

- Protected between two panes of tempered glass for enhanced safety and performance.
- With no dangling cords, this is a kid- and pet-friendly choice.
- Blinds remain dust free, and glass is easier to clean than traditional blinds.
- Available options include Low-E glass for energy efficiency, EnLiten_™ flush-glazed designs and Impact-rated options.

Available in Fiber-Classic, Smooth-Star, Profiles and Traditions doors and sidelites.

Privacy & Textured Glass

Therma-Tru₀ doors and sidelites can be fitted with our beautiful privacy and textured glass. This versatile assortment aligns with personal style and homeowner desires for privacy while allowing natural light to brighten the interior.

- All privacy and textured glass options are triple-pane, providing thermal efficiency.
- Triple-pane construction also allows for an easy-to-clean surface.
- Available with two Lip-lite frame options, as well as seamless flush-glazed options, in select doors.

Available in Classic Craft, Fiber-Classic, Smooth-Star, Profiles, Traditions and Pulse doors and sidelites.

Low-E Glass

Factory-coated Low-E glass delivers exceptional energy efficiency. Available in Classic Craft, Fiber-Classic, Smooth-Star, Profiles, Traditions and Pulse. Look for the (**) icon.

Divided Lites

Enhance the beauty of any home with a variety of divided lite options for entry and patio doors. Tailor the look with different texture, profile, width and color choices.

- Coordinate with the home's window patterns and architectural details for a cohesive look and increased curb appeal.
- Available divided lite options include simulated divided lites (SDLs), grilles between glass (GBGs) and fixed grilles.
- Available glass options include elegant privacy and textured, as well as energy-efficient Low-E and clear glass.

Available in Classic Craft, Fiber-Classic, Smooth-Star, Profiles, and Traditions.

EnLiten™ Flush-Glazed Designs

For Classic Craft, Fiber-Classic, & Smooth-Star, Doors & Sidelites

Strength is built in.

Our doors are durable by design. Flush-glazed glass represents a trouble-free solution that provides a superior barrier against the elements, resulting in performance you can depend on.

^{*}Comparison of U-factor values of a flush-glazed full-lite door and a Lip-lite full-lite door, both with Low-E glass.

Left Page Top Left: Classic Craft Fir Grain, Satin Etch Glass with SDLs, Doors – CCA82320XE, Finish – Raven Left Page Bottom Left: Smooth-Star, Chinchilla Glass with SDLs, Door – S2104XJ, Finish – Granite

Left Page Bottom Right: Smooth-Star, Internal Blinds, Doors – S2600

Right Page: Smooth-Star, Low-E Glass, Door – S4814, Sidelites – S6201SL, Finish – Onyx

^{**}Must be installed as part of a Therma-Tru door system in compliance with a Therma-Tru product approval. Impact-rated products not available.

Durable by design.

Double- or triple-pane glass is built directly into the door with a high-performance dual adhesive weather seal. This delivers a clean seamless look with no lite frame or screw plugs, and reduces the potential for air and water infiltration, among other benefits.

Superior Sound Dampening

Doors with flush-glazed glass do a better job of dampening outside noise compared to a Lip-lite alternative.

11% More Energy Efficient

The Low-E glass used in flush-glazed doors delivers a clear view and is 11% more energy efficient than 1/2" Low-E glass in a Lip-lite frame.*

Withstands Winds Up to 167 mph

Door systems with flush-glazed glass are designed and tested to withstand wind forces up to 167 mph (DP-50).** (ASTM-E330)

EnLiten_™ Flush-Glazed Warranty Riders

for Construction & Installation, and Homeowners. See page 129 for details.

Tough when you need it. Beautiful always.

2 Use the icons to find available Therma-Tru₀ product options in this catalog.

WBDR / HVHZ Options: Look for this icon to find door and sidelite styles that can be configured for WBDR or HVHZ.

3 Verify that there is a Therma-Tru product approval specific to your area for the door system configuration before buying.*

4 Make sure the product is installed in compliance with the product approval to meet building codes.

The performance of the door system depends on how it is installed. Proper installation is required to comply with building codes.

^{*}Product approvals show that the door system meets applicable codes when selected, assembled and installed as instructed.

Note: See your Therma-Tru seller or visit www.thermatru.com for product approvals and installation instructions. Always confirm building code requirements in your area before buying. Follow weather and news reports to assess severe weather situations and obey local authorities' shelter and evacuation orders.

No product guarantees safety for persons or property, nor makes any premises hurricane- or impact-proof.

Constructed to help protect the interior of the home from flying debris and high winds associated with tropical storms and hurricanes, these products are tested to meet codes and regulations in coastal regions, including parts of Florida, Texas and the Carolinas.*

Impact Doors

Feature a built-in 24-gauge steel plate lining.

Impact Glass

Features special laminated glass construction.

Impact-Rated Internal Blinds

Features laminated glass construction and a durable, paintable aluminum lite frame with a flat profile aesthetic cover for a simple look.

Impact Lip-Lite Frame

Features durable, paintable aluminum construction.

An attractive scrolled profile gives a thin, sleek appearance and a screw channel cover helps hide unsightly screws.

Top: Fiber-Classic Oak Collection, Clear Glass, Doors – 8000, Finish – Driftwood Bottom: Smooth-Star, Clear Glass, Doors – S2000

A Therma-Tru patio door with genuine Therma-Tru components is a complete door system with doors, glass and components engineered to work together for durability and reliability through the years.

Interior view of door.

- Multi-Point Locking System (Recommended)
- 2 Bottom Sweep
- 3 Sill
- 4 Hinges
- **5** Corner Seal Pads (Inswing Only)
- 6 Sill Pan (Recommended)
- **7** Frame Components
- 8 Multi-Point Locking System (Included)
- Removable Screens

Vented Sidelites

Enjoy the view - and a fresh breeze, too.

- Constructed to provide ventilation without sliding screens blocking the view, vented sidelites work as small swinging doors with convenient removable screens — available in bronze and white.
- Engineered for durability and safety with wide patio mullions for strength, and multi-point locking gears and recessed strike plates for security.

Look for the () symbol.

Available Configurations

Single Door with Vented Sidelites (Inswing Only)

Double Doors with Vented Sidelites (Inswing Only)

Patio Transoms

Transoms can be stained or painted to match a Fiber-Classic or Smooth-Star door system. Available for 5'0", 5'4", 5'8" and 6'0" patio openings.

Note: Patio transoms are designed for door systems with a mullion.

Classic Craft, starting on page 110.

Fiber-Classic, Smooth-Star, Profiles & Traditions, starting on page 212.

Retractable Screen Doors

Welcome fresh air and natural light into the home while keeping debris and insects out. Therma-Tru retractable screen doors feature a discreet, hidden design that helps provide a seamless transition from indoors to out. Plus, it's been quality tested for compatibility with Therma-Tru, entry door systems.

^{*}Adjusts quickly for 32"-36" doors. If less than 32", a hacksaw is required for one cut to each track.

^{**}Based on average DIY skills and standard door application, widths 32"-36".

^{***}Retractable screen frame colors are complementary to PrismaGuard, but not an exact match.

Note: Recommended for inswing applications only. Therma-Tru retractable screens are designed to support natural ventilation and protection against airborne insects and other pests. Windy conditions may affect the performance of the screen. Retract the screen in windy circumstances, during inclement weather and when not needed to support immediate ventilation or prolonged periods of time when not used. Not intended to keep pets inside. See your Therma-Tru seller or visit www.thermatru.com for details on limited warranties and exclusions.

Available Sizes

(Available for most inswing units.)

Single Door SystemWidths: 32"–36"
Heights: 6'6", 6'8", 8'0"

French Door System
Widths: 68"-73"
Heights: 6'6", 6'8", 8'0"

Installation is quick and easy, taking approximately 30 minutes.**

Available Color Options

Coordinates with exterior trim.***

Available Configurations

See your Therma-Tru seller for details on product availability and ordering.

Warranty Coverage

All parts are covered by the Therma-Tru full-system limited warranty, excluding the screen mesh, when purchased and installed with a Therma-Tru door system.

Fiber-Classic, Smooth-Star, Pulse Fiberglass

Profiles, Traditions, Pulse Steel

When purchased and installed separately all parts are covered by a full-system lifetime limited warranty, excluding the screen mesh.

Impressions Integrated Storm & Entry Door System

The first of its kind, the Impressions storm and entry door system* integrates the storm door flush into the brickmould portion of the door frame, creating a cohesive unit that provides a seamless look. With an integrated system engineered to work together, this system takes the guesswork out of ordering the right size storm door for your project and simplifies storm door installation.

1 Choose a Therma-Tru entry door to create an entry that complements your home's architectural style.

2 The Impressions system comes standard with composite brickmould and an aluminum storm door panel. For added protection from rotting and to match the brickmould, choose a composite frame featuring Tru-Guard™ composite technology.

3 The storm door features a modern profile with mitered corners for a sleek, on-trend look that emphasizes the beauty of the entry door. The storm door panel fits into Therma-Tru's flat-profile composite brickmould.

^{*}Patent pending

^{**}The Impressions system can be paired with a single sidelite on either side of the door or with two sidelites. Direct set sidelite options are also available.

^{***}Not suitable for use with Therma-Tru grip-style handlesets.

Note: See your Therma-Tru seller or visit www.thermatru.com for details on limited warranties and exclusions.

The storm door is easy to install at the jobsite.

The concealed hinges featuring retractable pins 4 and the revolutionary hidden closer with Click&Hold_n technology 5 enable a quick and intuitive installation experience. After the installation of the entry door, install the closer, sweep and hardware. Then, follow these three simple steps to complete the job. Scan the QR code to learn more about storm door panel installation.

Features a maintenance-free finish.

White Color matched to PrismaGuard Alpine.

Gray Color matched to PrismaGuard Granite.

Brown Color matched to PrismaGuard Elk and complements most stain options.

Black Color matched to PrismaGuard Onyx.

An unrivaled entry experience.

Transform the entry into a one-of-a-kind experience. One that blends artistry, craftsmanship and modern engineering. Captivate the senses with remarkably authentic wood grains, exquisite handcrafted glass and sumptuous design details found only in Classic Craft. Because homes with uncompromising style demand uncompromising entryways.

Curated collections inspired by style.

Classic Craft celebrates the best of design for homes with uncompromising style. Three expertly curated collections draw inspiration from the latest trends and bring your home design vision to life with unrivaled beauty, luxe craftsmanship and an attention to detail you won't find anywhere else.

Industry-leading warranties for peace of mind.

Uniquely designed by Therma-Tru, Classic Craft complete entryway systems are backed by an industry-leading 1x transferable lifetime limited warranty from the entry door brand building professionals choose most.* This comprehensive lifetime limited warranty can be transferred one time to a new owner, should you ever sell your home.

In addition, Classic Craft entryways with our handcrafted and professionally applied PrismaGuardopremium stain or paint are backed by a transferable 10-year limited finish warranty – Therma-Tru's best. The balance of this finish warranty can transfer to a second owner.

Learn about our industry-leading warranties at thermatru.com/warranty.

Next-level engineering.

Classic Craft complete entryway systems are designed with a full suite of premium-grade components, including ball-bearing hinges, medium-reach weatherstrip, 7-shape corner seal pads and more. Each piece is engineered with craftsman precision to create an unrivaled entry experience built to perform for a lifetime.

Premium construction, inside and out.

Highlighting the best of craftsmanship and innovation, Classic Craft premium entryways boast impressive, well-designed features and remarkable construction. The inner workings of each Classic Craft door lay the foundation for exceptional strength, security, energy efficiency and long-term performance you can

Engineered for Moisture Protection

Features composite top and bottom rails and solid hardwood edges for increased moisture and rot protection all the way around the door.

Designed with Authenticity

Features construction identical to wood doors with narrow stiles and rails, and flush-glazed glass options that are more than 10% wider* to welcome more natural light into the home.

Tested to Withstand Mother Nature

Designed and rigorously tested to withstand and protect from the damaging effects of harsh weather conditions.

Therma-Tru. Door Frame

Created specifically for Therma-Tru doors to deliver an entire entry system designed and engineered to work together to resist leaks and drafts, and help maintain energy efficiency and weather resistance.

**Comparison of R-Values of fiberglass to wood doors (both without glass). Right Page Top: Classic Craft Walnut Grain Door - CCW8901L; Low-E Glass Direct Set Sidelite - DRS82131SL, Finish - Acorn Right Page Middle: Classic Craft Mahogany Grain, Homeward Glass, Door - CCM82801, Finish - Barley

Designed for Long-Term Performance

Features fiberglass skins that are 46% thicker* for added durability and better long-term performance.

Triple-Pane Construction

Most decorative, privacy and textured glass panels are enclosed between tempered glass, offering superior quality and thermal performance.

Crafted for a True-to-Wood Appearance

Revolutionary AccuGrainstechnology replicates authentic natural wood textures for a look and feel that is virtually indistinguishable from real wood.

Built for Strength and **Security**

Constructed with a 4" wide board of engineered lumber that runs the full length of the locking side of the door for a solid natural wood feel that makes Classic Craft doors 50% stronger and 30% heavier.*

Constructed for Energy Efficiency

Built with a high-performance polyurethane foam core that is four times more energy efficient than wood.**

True-to-Wood Origins

Revel in the handcrafted look and feel of a premium fiberglass entryway with true-to-wood origins. Discover exquisite textures with grains hand selected from the finest natural wood species and meticulously recreated with our revolutionary AccuGrain, technology.

AccuGrain.

Bottom: Classic Craft Walnut Grain, Door – CCW900L, Finish – Shale

Fir Grain

Formerly Classic-Craft American Style

Designed to echo the grain of the largest species of American Hemlocks – the Western Hemlock tree – found in lush coastal rainforests of the Pacific Northwest.

Mahogany Grain Formerly Classic-Craft Mahogany & Rustic

Derived from the finest African and Honduran Mahogany, blending rustic influences with exotic roots to build upon the rich history of one of the most renowned woods in the world.

Canvas

Inspired by the world's most exquisite masterpieces and designed with the architectural character of finely sanded wood.

Decorative & Specialty Glass Designs

Homeward_{TM}

The balanced Mission-style pattern of Homeward invites light to cascade through its distinctive 1 clear bevels, 2 seeded glass and 3 gray artique glass. An ideal complement for a Transitional home design.

Glass Shapes

Glass Privacy Rating

Brushed Nickel

Arborwatch_®

An eclectic interpretation of the Arts and Crafts movement, Arborwatch combines

1 narrow reeded glass, 2 M seedy glass,

3 waterglass and caming in a symmetrical arrangement accented by 4 pale amber glass, 5 amber artique glass and

6 clear bevels.

Glass Shapes

Glass Privacy Rating

Note: The use of pale amber and amber artique glass varies based on glass size. Refer to the image on page 66 to see an example on a home.

Black Nickel

Brushed Nickel

Augustine_®

Augustine's swirl leaf design adds that touch of elegance. Made of round wrought iron and 1 granite glass for the ultimate in privacy, Augustine pays homage to classic English styling.

Glass Shapes

Corresponding sidelites feature Granite glass without wrought iron.

Glass Privacy Rating

Wrought Iron

Note: Features a lite frame with an authentic wrought iron look in a black finish. Refer to the image on page 83 to see an example on a home.

Borrassa_®

A statement of strength and beauty,
Borrassa combines linear and curved
wrought iron with hammered glass
for the ultimate in privacy. Wrought iron
decorative accents add an authentic Old
World feel to this stately design.

Glass Shapes

Corresponding sidelites feature Hammered glass without wrought iron.

Glass Privacy Rating

Wrought Iron

Note: Features a lite frame with an authentic wrought iron look in a black finish. Refer to the image on page 52 to see an example on a home.

Decorative & Specialty Glass Designs

Provincial_{TM}

A unique diamond-based motif features 1 double waterglass, 2 clear bevels and caming surrounded by a 3 gray baroque glass border. Provincial captivates with stunning clarity.

Glass Shapes

Glass Privacy Rating

Brushed Nickel

Longford

The traditional design of Longford integrates a hint of a Celtic knot with

- seeded glass, 2 clear bevels,
- 3 granite glass and caming. A timeless design ideal for entries where modest privacy is desired.

Glass Shapes

Glass Privacy Rating

Brushed Nickel

Lucerna_®

Named for the beauty of light it reflects,
Lucerna glass presents an elegant,
updated fleur-de-lis pattern in a spectrum
of 1 curved, 2 diamond and
3 rectangular bevels surrounded by
smooth, swirling 4 barn wood and
heavily textured 5 diamond border glass.

Glass Shapes

Glass Privacy Rating

Brushed Nickel

Zaha

Structured right angles are offset by dynamic curves in this high-energy design. Zaha features 1 oceana and 2 seedy glass, 3 clear and 4 multifaceted bevels, and caming to create a refreshing and unexpected elegance that appeals to Contemporary home styles.

Classic Craft. Hinged Patio Doors

A premium entrance to outdoor living.

The unmatched craftsmanship of Classic Craft premium entryways extends to the patio as an uncompromising entrance to the outdoors. Select from remarkably authentic wood grains and premium smooth surfaces to create a seamless indoor-outdoor connection.

Note: Finish colors may vary from an actual application due to fluctuations in finishing or printing. See your Therma-Tru seller or visit www.thermatru.com for details on limited warranties and exclusions, and ENERGY STAR qualified products.

Fiber-Classic. & Smooth-Star.

Fiber-Classic_®
Mahogany Collection_™

Fiber-Classic Mahogany complements rich wood tones in home interiors, extending the look to the outside with beauty and elegance.

Fiber-Classic

Oak Collection

Fiber-Classic Oak is the door that started the fiberglass revolution and features the warm look and feel of natural Oak graining.

Smooth-Star.

Smooth-Star fiberglass doors are ready-to-paint with crisp, clean contours making them the more attractive and durable alternative to steel.

See the difference color can make.

Therma-Tru offers a wide variety of finish options for our doors. Explore PrismaGuardapremium finish and Same-Daya Stain color options on pages 260–266.

Glass Options

- Explore a portfolio of interchangeable decorative glass designs, and privacy and textured glass options starting on page 120.
- Lite frame options include Advanta lite frame with no screw plugs and a standard Lip-lite frame, starting on page 142. Both feature 22" wide glass and are suitable for use with a storm door.
- Welcome even more light into the home with EnLiten_™ flush-glazed designs with 25–27" wide glass, starting on page 129.
- Low-E glass is available for internal blinds, divided lites and clear glass, providing exceptional energy efficiency.

Door Construction

Fiber-Classic and Smooth-Star doors set the standard for beauty, quality and performance at an excellent value. Explore the craftsmanship and innovation of doors designed for long-lasting energy efficiency, durability and security.

Weather Resistance

Composite rails protect the door at the top and bottom edges to help block moisture that can wick into doors.

2 Security

Our fiberglass door slabs are up to 30% more resistant to kick-ins than standard steel doors.* Our Fiber-Classic and Smooth-Star doors feature an enhanced lock block combined with a 1-1/4" engineered lumber lock stile which increases rigidity and stability.

3 Durability

With very little maintenance, a fiberglass door can bring a home years of durability. Unlike wood, fiberglass will not warp or rot. And, unlike steel, it will not dent or rust.

4 R-Values

Built with a polyurethane foam core that offers up to four times the insulating R-Value of wood**, Therma-Tru fiberglass doors insulate against cold and heat for exceptional energy efficiency.

^{*}Comparison of pendulum impact test results for Therma-Tru doors in steel versus fiberglass. Visit www.thermatru.com for details.

^{**}Comparison of fiberglass to wood doors (both without glass).

^{***}Based on version 6.0 ENERGY STAR product specification for windows, doors and skylights.

Additional Options

- WBDR Options: Look for this icon to find door styles that can be configured for WBDR.*
- WBDR / HVHZ Options: Look for this icon to find door styles that can be configured for WBDR or HVHZ.*
- Fire-Rated Options: Available on solid-panel doors. See pages 242–245.

Flush-Glazed Options: Look for these icons (▲ ▲) to find doors styles with flush-glazed glass. See pages 129–141.

Warranties

Fiber-Classic and Smooth-Star products are backed by a lifetime limited warranty. See page 287 for more information.

- ▲ Fiber-Classic_{*} and Smooth-Star_{*} products with flush-glazed glass are also backed by the EnLiten_™ Flush-Glazed Rider for Construction & Installation, and the EnLiten_™ Flush-Glazed Rider for Homeowners. See page 129 for more information.
 - Fiber-Classic and Smooth-Star door systems are eligible for the Tru-Defense Warranty Rider when properly assembled and installed with all Therma-Tru specified system components, in accordance with the Rider. See page 22–23 for details.

Retrofit Hinged Patio Doors

Replacing common slider sizes? Find hinged patio door options in this section. For more about our patio door systems, see pages 212–217.

5'0" Patio Opening = (2) 2'4" Doors 6'0" Patio Opening = (2) 2'10" Doors

*Please verify that there is a Therma-Tru Impact-rated product approval for the configuration before buying.

Note: Finish colors may vary from an actual application due to fluctuations in finishing or printing. See your Therma-Tru seller or visit www.thermatru.com for more, including details on limited warranties and exclusions, Riders, ENERGY STAR qualified products and product approvals.

Right: Smooth-Star, Clear Glass, Door - S8140

Vented Sidelites

More than a sidelite. Vented sidelites from Therma-Tru let the homeowner enjoy the added curb appeal of an elegant front entry unobstructed by a screen door. Choose from convenient specialty glass options or eye-catching decorative designs. In fact, only Therma-Tru offers vented sidelites with decorative glass. Look for the () icon.

- Sturdy stiles and hinges make the unit work as a small swinging door.
- Wide patio mullions provide dependable operation.
- Multi-point lock and continuous system help provide security and stability.
- Convenient removable screens available in bronze and white – are designed for worry-free use.

Available Sizes:

Wie	dth

Available Configurations:

Single Door with Vented Sidelites (Inswing Only)

Double Doors with Vented Sidelites (Inswing Only)

Decorative & Specialty Glass Designs

Blackstone_®

Traditional English design meets 1 clear curved bevels, 2 rainglass and caming to create the distinctive styling of Blackstone. Entries get the best of both privacy and simple refinement.

Brushed Nickel

Crystalline™

This time-honored design features geometric styling brought to life with 1 glue chip glass, 2 glue chip bevels, 3 clear bevels and caming. Offering modest privacy, Crystalline is a shining example of traditional decorative glass with lasting beauty.

Black Nickel

Brushed Nickel

Sedona

Art meets glass in Sedona where Arts and Crafts simplicity is designed with

- 1 slump glass, 2 clear bevels,
- 3 clear artique glass and caming.

Glass Privacy Rating

Salinas_®

Oceana glass and wrought iron come together to create a cheerful entry glass design that offers the ultimate in privacy with yesterday's charm.

Glass Privacy Rating

Wrought Iron

Maple Park

With hints of Mission style and the American Southwest, Maple Park provides a sophisticated appearance with 1 waterglass, 2 clear bevels, 3 granite glass and caming. The curved design adds unique appeal.

Glass Privacy Rating

Brushed Nickel

Black Nickel

Saratoga™

Saratoga evokes a certain urban sophistication while offering modest privacy with its 1 clear bevels,

2 diamond glass, 3 reeded glass and caming. The geometric pattern bridges both modern and traditional designs.

Black Nickel

Brushed Nickel

Texas Star

Beautifully crafted with 1 clear bevels, 2 curved bevels, 3 clear waterglass, 4 granite glass, 5 glue chip glass, there's no mistaking the inspiration for this recognizable design. Strong, independent and all-American.

Brushed Nickel

Wellesley_{TM}

Simple yet charming, Wellesley's Victorian-inspired design uses 1 clear baroque glass, 2 clear curved bevels, 3 waterglass, 4 granite glass and caming to add beauty to any entry.

Brushed Nickel

Brass

Riserva_®

Riserva decorative glass features a combination of linear and curved wrought iron elements that create a simple yet graceful design. Riserva features 1 oceana glass for privacy with a look that enhances a wide variety of home styles, including Mediterranean, Old World and Southwest.

Glass Privacy Rating

Wrought Iron

Concorde_M

There's just something friendly about Concorde's cheery four-leaf design.

1 Glue chip glass, 2 clear curved bevels, 3 clear glass and caming make up its Old World charm.

Brushed Nickel

Brass

Kensington_™

Kensington speaks European elegance while offering modest privacy with its

- 1 clear bevels, 2 glue chip glass,
- 3 granite glass and caming.

Glass Privacy Rating

Brushed Nickel

Pembridge[™]

Simplistic in its design, Pembridge features a field of 1 hammered glass framed by 2 gray baroque glass and 3 multifaceted bevels. A central diamond shape adds a decorative touch.

Glass Privacy Rating

Note: The use of gray baroque glass varies based on glass size.

Black Nicke

Brushed Nickel

Brass*

Axis_®

Simple and smart, Axis combines

1 narrow reeded glass in horizontal
and vertical arrangements to create
contrast and modest privacy. A vertical
band of 2 clear glass bevels completes
this linear design, ideal for Modern
home styles.

NEW Calix

Calix includes an on-trend "x" design and a delicate diamond pattern with clear glass, providing fine-lined geometric appeal.

Available with Advanta_™ lite frame* or Impact-rated lite frame only.

Black Nickel

Brass

NEW Latitude

Latitude showcases **1** seedy glass and simple curved details in a half-moon geometric design.

Available with Advanta_™ lite frame* or Impact-rated lite frame only.

Black Nickel

Brushed Nickel

Brass

^{*}See your Therma-Tru seller for details on product availability.

NEW Echelon

Echelon provides 1 clear glass accented with eased angles and and clean edges infused with elements of diamonds and triangles.

Available with Advanta_™ lite frame* or Impact-rated lite frame only.

Brushed Nickel

Brass

Internal Blinds

Internal blinds provide the privacy and convenience of a cordless blind enclosed between glass. A single-hand operator opens, closes and tilts the blinds to control the desired level of privacy and light.

- 1 Single-Hand Operator
- 2 Privacy Bar

Screen Vented

Screen vented lites offer a built-in screen for ventilation, featuring a gliding operation and sash locking system.

EnLiten™ Flush-Glazed Designs

EnLiten flush-glazed designs feature double- or triple-pane glass built directly into the door with a high-performance dual adhesive weather seal. This creates a seamless look with a simple profile around the glass and no lite frame or screw plugs. In addition, EnLiten flush-glazed designs offer up to a 16% increase in visible glass area than conventional lite frames to welcome more natural light into the home.

Flush-Glazed Glass

Lip-Lite Frame

Warranty riders for peace of mind.

EnLiten_™ Flush-Glazed Rider for Construction & Installation

Provides protection in case of accidental glass breakage during residential and multi-family construction or installation. Therma-Tru will replace the flush-glazed fiberglass door or sidelite.

EnLiten_™ Flush-Glazed Rider for Homeowners

Provides protection in case of glass-related failures due to manufacturer defect. Therma-Tru will furnish \$300 toward installation and replace the flush-glazed fiberglass door or sidelite.

See the difference.

EnLiten flush-glazed designs provide a simple profile with no added embellishments around the glass.

Therma-Tru. Noise Reduction doors deliver aesthetics with a commercial level of performance for residential projects. Ideal for multi-use and urban in-fill projects located near sources of noise pollution, our Noise Reduction doors provide a Sound Transmission Class (STC) rating of 36. Our Noise Reduction lites also offer added security from forced entry with laminated glass surrounded by a standard Lip-lite frame.

Note: Also available in decorative full-lite glass option in aluminum Lip-lite frame.

Profiles_™ Steel Doors

Versatile, affordable options.

Coupling distinctive styling with affordability, Profiles steel doors offer versatile front entry and house-to-garage options. Designed to suit multiple home styles, these doors feature triple-shadowed panel embossments for greater detail.

Top: Profiles, Sedona Glass, Door – 996HD, Sidelite – 139SL Bottom: Profiles, Screen Vented Glass, Door – 1004HD

Traditions Steel Doors

Back to basics.

It's back to basics with Traditions. This line of steel doors combines attractive designs and value-based options to create a great, cost-conscious alternative for front entry and house-to-garage.

Profiles Mark & Traditions Steel Doors

Find style at an affordable price point with options to match any home style and budget in Profiles and Traditions doors. Fire-rated options on 6'8" solid-panel doors make a perfect choice for house-to-garage.

- 1-1/4" lock stiles.
- 12-1/2" lock blocks.
- No stile lines.
- Primed, ready-to-paint surface.
- WBDR / HVHZ Options: Look for this icon to find door styles that can be configured for WBDR or HVHZ.*
- 20-Minute Fire-rated options available on 6'8" solid-panel doors. See pages 242–245.

Profiles_™ Steel

Features 24-gauge steel, smooth surface and triple-shadowed panel embossments for greater definition.

Traditions Steel

Features 25-gauge steel, standard embossed smooth surface.
All 8'0" doors are 24-gauge steel with standard embossments.

Fire Doors

Smooth-Star_® & Steel

Therma-Tru_® Fire-Rated Doors

From smooth to wood-grained, Therma-Tru offers products to meet most national and local code requirements for house-to-garage, multi-family residential and hotel / motel unit entries.* Explore a wide variety of 20-minute Fire-rated fiberglass and steel door styles.

Fiber-Classic and Smooth-Star 20-minute Fire-rated fiberglass doors are now constructed with a polyurethane foam core that reduces overall door slab weight by 45% for easier handling and installation.**

20-Minute Fire-Rated Fiberglass Doors

- Tested to withstand a minimum of 20-minutes of fire exposure with temperatures that reach more than 1,400 degrees Fahrenheit.
- Features a 20-minute positive pressure rating.
- Certified by Intertek, Warnock Hersey for mortise lock use and features a wide lock stile to provide proper handleset reinforcement, combined with lock and hinge stiles that increase rigidity and stability.
- More durable than steel, and resist dents, scratches and rust, making them ideal for high-traffic, heavy-use environments.
- Features full-length lock side blocking, as well as blocking for panic and closure applications.
- Ideal for hotels, apartments, office buildings and other applications with security locks and card readers.

Additional Options

Solid-panel steel wood-edge doors also available with the 20-minute Fire-rated label, starting on page 245.

For California Projects

Therma-Tru Fiber-Classic and Smooth-Star 20-minute Fire-rated fiberglass doors meet or exceed building codes and regulations specific to the state of California, including:

- ✓ California Wildland Urban Interface (WUI) requirements.
- √ California Air Resources Board (CARB) formaldehyde regulations.
- ✓ California State Fire Marshall test CA SFM 12-7A-1.

For Florida Projects

Therma-Tru Fiber-Classic and Smooth-Star foam core 20-minute Fire-rated fiberglass doors include options to meet building codes and regulations specific to the state of Florida.

- ✓ Approved for structural use in Florida.
- ✓ Approved for Wind-Borne Debris Regions (WBDR).

^{*}To confirm fire door requirements in your jurisdiction, always check with your local building code authority.

**Comparison of 20-minute foam core Fire-rated door to a 20-minute concrete core Fire-rated door with similar style.

Note: To see the third-party Intertek (Warnock-Hersey) listing reports, visit www.thermatru.com/performancedata.

PULSE

Modern design. Upbeat living.

Clean lines. Crisp angles. Sleek designs. Vintage style. Pulse is a contemporary series of door styles and glass designs that can be combined to make a bold statement. With three distinct aesthetic approaches – Ari, Línea and Echo – the entrance becomes modern art.

It's your decision, by design.

Pulse is geometry with energy. Designed to be fun and easy to mix and match with sleek, flush door and sidelite styles, you can create a modern entrance without missing a beat. Explore all the possible combinations at thermatru.com/pulse. Mix and match to get the style numbers needed to order. Turn the page for a glimpse of available styles and sizes.

The creativity is unlimited. Stain or paint the entrance any color.

These doors and sidelites come ready to stain or paint. So there's no limit to the creativity you can use when it comes to finishing touches.

1 Start with a STYLE.

Combine doors and sidelites to create an entrance that fits your vision.

Choose a MATERIAL.

Each style is available in any of these material choices.

Mahogany or Oak (Shown in Driftwood stain.)

Fiberglass

3 Select a GLASS.

Find an available glass design to complete the statement you want to make.

Privacy & Textured Glass

Available for all Pulse door styles.

Low-E Also Available.

Decorative Glass

Available for Línea.

Available for Ari.

Available for Echo.

Finishing Options

Add Curb Appeal with Color

Stain and paint can make all the difference when it comes to a home's curb appeal. Find inspiration and explore professionally applied premium stains and paints, as well as options for in-field applications.

Note: Finish colors may vary from an actual application due to fluctuations in finishing or printing. See page 287 for important product details that may help with your purchase decision. See your Therma-Tru seller for details on the PrismaGuard limited warranty and exclusions.

Finished for Lasting Beauty

Handcrafted and professionally applied in a controlled environment, a PrismaGuard premium finish is built to last, giving your customers confidence and peace of mind.

- Designed for optimal performance with Therma-Tru_® fiberglass doors and composite door frames.
- Features enhanced durability to protect from everyday wear and tear.
- Backed by a 10-year limited finish warranty. For Classic Craft_® doors, the balance of this warranty can transfer to a second owner.
- Enhances the overall beauty of the entry with a nature-inspired color palette of premium stains and paints.

Professional Application

Therma-Tru is proud to partner with Yellowstone Forever, the official nonprofit partner of Yellowstone National Park. Select colors in our PrismaGuard portfolio are inspired by the beauty found in Yellowstone National Park. Look for the () symbol.

Tested to meet tough expectations.

PrismaGuard premium finish is put through multiple rigorous tests in our engineering labs. This helps ensure that our PrismaGuard finish is built to last, just like the Therma-True doors it was designed for.

Lasting beauty and color.

Using specialized equipment, PrismaGuard stains and paints are tested to help deliver a consistent high-end appearance perfect for wood-grained or smooth door surfaces.

Resistance against wear and tear.

PrismaGuard finish is subjected to a simulation of everyday use to provide a durable high-end, low-maintenance finish that protects the door from normal wear and tear.

Protection from the elements.

Therma-Tru simulates exposure to harsh environments to help verify that PrismaGuard finish coating protects the door from the elements, preserving its color for years to come.

Confidence on the coast.

Therma-Tru simulates a highly corrosive atmosphere to help ensure PrismaGuard finish can withstand the damaging effects of high-salt environments near the coast.

Note: Finish colors may vary from an actual application due to fluctuations in finishing or printing. See page 287 for important product details that may help with your purchase decision. See your Therma-Tru seller for details on the PrismaGuard limited warranty and exclusions.

PrismaGuard_® Premium Stain

Bring the authentic look of wood to life with rich tones that add dimension and are designed to enhance the wood grains of Therma-Tru₀ fiberglass doors and composite door frames.

- 1 It starts with the realistic wood grains and deep embossments of a Therma-Tru₀ door or composite door frame.
- 2 A base coat provides an even, consistent color across the surface.
- 3 A wiping stain enhances the base coat while adding dimension to reflect the natural beauty of wood.
- 4 A durable topcoat enhances the high-definition color while protecting against scratches and color fading.
- **5** A second application of the topcoat provides added durability and optimal sheen for a high-end look.

Shown on Classic Craft Fir Grain.

PrismaGuard_® Premium Paint

Add a pop of color to Therma-Tru_® doors and composite door frames, and tailor the look of the entry to make a beautiful lasting impression.

- 1 It starts with the smooth or wood-grained surface of a Therma-Tru door or composite door frame.
- 2 A base coat provides an even, consistent color across the surface.
- 3 A durable topcoat enhances the high-definition color while protecting against scratches and color fading.
- 4 A second application of the topcoat provides added durability and optimal sheen for a high-end look.

Color matches available.

Explore other products from Fortune Brands Outdoors designed to match select colors shown here. Look for the () symbol. See your Therma-Tru seller for details.

SAME-DAY. **STAIN**

Create the authentic look of real wood in just a few simple steps.

- Achieve professional-looking results with an easy-to-use, quick-drying formula.
- Colorfast stain resists fading, bleaching and yellowing to create a beautiful finish.
- Finish colors can be applied in a variety of shades to complement multiple home styles.
- Specially formulated for Therma-Tru_® fiberglass doors and composite door frames.

Shown on Classic Craft_® Fir Grain.

Walnut

All-Inclusive Kit

Contains everything needed to stain a Therma-Tru fiberglass double door system or a single door with two sidelites.*

Watch easy-to-follow instructions at thermatru.com/samedaystain.

For complete details on the Same-Day Stain and topcoat limited warranty, go to thermatru.com/finishing or ask your seller for more details.

Door System Components

Engineered to work together.

A Therma-Tru® door with genuine Therma-Tru components is more than a beautiful door – it's a complete door system engineered with craftsman precision for durability and reliability through the years. And, a Therma-Tru fiberglass door system with genuine Therma-Tru components is backed by the industry's most comprehensive lifetime limited warranty.

Visit our online replacement parts page to maintain the integrity of a complete door system with genuine Therma-Tru components at thermatru.com/parts.

Composite Door Frame*

featuring Tru-Guard™ Composite Technology

COMPOSITE TECHNOLOGY

Composite door frame featuring Tru-Guard_™ composite technology provides a rot-free solution engineered to work together with rot-resistant Therma-Tru doors and components.

- Delivers extra protection from the damaging effects of outside elements for peace of mind.
- Eliminates the risk of rot and wood-ingesting insects with a durable composite material that is virtually maintenance free. Rot-free door frame does not absorb moisture and resists mold, mildew and fungus.

Reinforced Mullions

Provide additional structural support and stability. All mullions are reinforced with a co-extruded A LVL core to provide additional structural support and stability and feature a 3 composite-capped bottom to eliminate the risk of water absorption and maintain a rot-free composite exterior.

Order composite door frame samples at store.thermatru.com.

^{*}See your Therma-Tru seller for details on product availability.

^{**}Comparison of pendulum impact test results for Therma-Tru composite door frame and standard finger-jointed Pine wood door frame, both with similar pre-hung doors.

^{*}To confirm code requirements in your jurisdiction, always check with your local building code authority.

Note: See your Therma-Tru seller or visit www.thermatru.com for details on available product sizes and options, limited warranties and exclusions, and Rider. Frame-only warranty option for customers without a Therma-Tru door system.

Available Textures

Buff Grained

- Features a universal wood grain to complement a wide range of grain species.
- Stain or paint to complement the entry
 - no sanding or priming required.

White Smooth

- Features a matte finish similar to painted wood and includes a protective layer with UV inhibitors to help resist yellowing and fading.
- Ready to install as-is no painting required. Or finish with stain or paint to complement the entry - no sanding or priming required.

The advantage is clear.

Code-Compliant Options

Therma-Tru composite door frame delivers the durability and reliability you expect from Therma-Tru with options to meet select national and local building code requirements.**

Impact-rated to meet high-wind and coastal region codes and regulations, offering excellent performance in extreme weather conditions while providing added protection.**

20-minute Fire-rated to meet most national and local code requirements for house-to-garage, multi-family residential and hotel / motel unit entries.**

^{*}Comparison of pendulum impact test results for Therma-Tru composite door frame and standard finger-jointed Pine wood door frame, both with similar pre-hung doors.

^{*}To confirm code requirements in your jurisdiction, always check with your local building code authority.

Note: See your Therma-Tru seller or visit www.thermatru.com for product approvals and installation instructions. Always confirm building code requirements in your area before buying. Follow weather and news reports to assess severe weather situations and obey local authorities' shelter and evacuation orders. No product guarantees safety for persons or property, nor makes any premises hurricane- or impact-proof. To see the third-party Intertek (Warnock-Hersey) listing reports, visit www.thermatru.com/performancedata.

Sills

Allow for a tight seal to help block wind-driven moisture infiltration at the bottom of the door and a solid stepping surface. Available in a variety of materials with features to meet the needs of different climates and exposures. Ask your Therma-Tru seller for a complete list of options.

Inswing Options

Composite Adjustable Sill (Premium)

- Thick wood-grained composite cap and nosing.
- U-shaped weather seal.
- Adjustable flush screws.
- Solid extruded composite substrate.

Continuous length with spread mullion capability to fill 49"-75" rough openings.*

Hardwood Adjustable Sill

- Durable hardwood cap and nosing can be stained to match door and trim.
- U-shaped weather seal.
- Adjustable flush screws.

Value Composite Adjustable Sill (Economy)

- Composite cap and nosing.
- Adjustable flush screws.
- Injection-molded composite substrate.

Outswing Options

• Thick wood-grained composite cap and nosing.

- Integrated weatherstrip.
- Helps meet code requirements in HVHZ coastal regions.

Aluminum Sill with Thermal Break

- All-aluminum construction.
- Integrated weatherstrip.
- Also available without
- thermal break.

Coastal Sill (For Coastal Regions)

- · All-aluminum construction.
- Extra-high cap profile.
- Integrated weatherstrip.
- Helps meet code requirements in HVHZ coastal regions.

Inswing Sill Extenders

Public Access Sill

Public Access Sill with Thermal Break** (For ADA Applications)

- All-aluminum construction.
- Ramp slope meets Americans with Disabilities Act (ADA) requirements.
- Also available without thermal break.

Key

^{*}See the Therma-Tru Architectural Details & Components manual for actual unit size specifications.

^{**}Door systems built with public access sills have little resistance to water penetration and have a potential to leak if installed exposed to weather. We recommend these systems be installed away from weather under large soffits or overhangs.

^{***}For full details on the Tru-Defense Warranty Rider, visit www.thermatru.com/trudefense.

Note: Finish colors may vary from an actual application due to fluctuations in finishing or printing. See page 287 for important product details that may help with your purchase decision.

Door Bottoms

Designed to mate with our sills and help provide added protection to help seal the margin between the door and sill. Kerf-applied for a secure fit and made of a heavy-duty material that holds its shape to help maintain contact.

Inswing Options

Composite Adjustable Hardwood Adjustable Value Composite Adjustable

Colors: Bronze White

Outswing Options

ADA / Replacement

Sill Protection

- Fits over the sill to help protect cap and finish from damage during installation.
- Made of a heavy-duty material to withstand wear.
- Available in a variety of options to fit our sills.

See page 273 for availability.

channels to help collect and drain moisture away.

Corner Seal Pads (Inswing Only) _____

Fit securely behind weatherstrip and mate with our inswing sills to help block wind-driven moisture from pushing through the corner and up the frame. (Not required for outswing sills.)

Classic Craft₆7-Shape Pads • Fiber-Classic. / Smooth-Star. **Basic Pads** 7-Shape Pads 💠 Colors: Colors: Bronze Colors: Bronze White Bronze Sills: White Sills: Inswing Composite Adjustable Sills: Applications Only Hardwood Adjustable Composite Adjustable Value Composite Adjustable Hardwood Adjustable Public Access Value Composite Adjustable Public Access

Weatherstrip

Engineered in a variety of profiles for a precise seal between the door and frame. Made of a flexible material protected by a durable jacket to resist moisture and wear.

Rain Protection (Recommended)

Helps repel moisture away from areas exposed to wind-driven moisture infiltration, enhancing weather protection. Highly recommended for applications directly exposed to wind and rain.

Hardware

Multi-Point Locking Systems (MPLS) (Recommended)

Engages the door and frame at three critical points from top to bottom for enhanced stability compared to traditional deadbolt assemblies. Features premium stainless steel construction that resists corrosion.

Grip-Style MPLS 💠

Grip-style handlesets offer an intuitive approach to the multi-point locking system with on-trend aesthetics. A simple 90-degree twist of the thumbturn (interior) or a key (exterior) is all it takes to engage the door frame at three points with no need to lift the handleset lever. An integrated mishandling device protects the door and frame from accidental damage. Features deadbolt located above handleset.

(Highly recommended for 8'0" fiberglass doors. Active option only. Not available for door systems with an astragal. Not recommended for steel doors or Impressions integrated storm and entry door systems. Strike plate package available.)

Tongue Heights:

Heights: 6'8" 7'0" 8'0"

Configurations: Inswing Outswing

1 Self-lubricating locks.

2 1" premium stainless steel deadbolt.

3 Integrated mishandling device.

Key

Tru-Defense Eligible

Lever-Style MPLS 💠

Lever-style handlesets bring form and function together with decorative styles. A convenient upward turn of the handle is required before all three points will engage. An integrated mishandling device helps protect the door and frame from accidental damage. Features deadbolt below the handleset.

(Highly recommended for 8'0" and double fiberglass doors. Not recommended for steel doors. Strike plate packages available to meet the installation needs of various MPLS applications.)

Handleset Options for Standard Door MPLS

Designed to complement Therma-Tru_® door styles from traditional to contemporary.

Latch & Deadbolt Strike Plate

Adjustable Security Strike Plate

(Recommended for standard lock and deadbolt handlesets only.)

Finish Options:

Brushed Nickel Black Nickel Polished Chrome Oil-Rubbed Bronze Stainless Steel Zinc Dichomate A genuine Therma-Tru adjustable security strike plate helps enhance the safety and security of a home, wrapping around the door jamb and fully engaging the frame of the house for added support and strength against forced entry.

- 1 Wraps around the door jamb for added support and an exact fit.
- 2 2-1/2" screws fully engage with the frame of the house for added strength.

Standard vs. Adjustable Security Strike Plate

Hinges

Adjustable Hinge 💠

(Recommended for Classic Craft premium entryways.)

Allow the door to be moved horizontally and vertically in the frame, maintaining alignment and keeping the door performing beautifully.

Classic-Craft_® Ball-Bearing •

(Recommended for Classic Craft premium entryways.)

Ball bearings help protect each hinge pivot for added support and stability.

Classic-Craft_® Ball-Bearing – Staggered Hole Pattern 🕈

(Recommended for Classic Craft premium entryways.)

Ball bearings help protect each hinge pivot for added support and stability. Staggered hole pattern helps simplify assembly process. Note: Non-removable pin option available with fixed pins, providing security on outswing applications.

Self-Aligning Ball-Bearing •

(Recommended for heavier Fiber-Classic, Smooth-Star and Steel doors.)

Contains locating tabs to assist in accurate alignment with specific door systems.

Self-Aligning *

(Recommended for heavier Fiber-Classic, Smooth-Star and Steel doors.)

Contains locating tabs to provide accurate alignment with specific door systems. Note: Non-removable pin option available with fixed pins, providing security on outswing applications.

Security Tab 💠

Security tabs prevent door from being taken off hinges, providing security on outswing applications.

Spring-Loaded 💠

UL Listed with self-closing spring mechanism that helps pull the door closed for convenience or meets code requirements that may be applicable in Fire-door applications.

Hinges position the door to properly compress the weatherstrip and help ensure smooth operation. Features options to suit various applications and mate with mortise pockets machined into our doors. Adjustable security strike plate wraps around the jamb and engages the frame for added support and strength, and resistance against forced entry.

Astragals

Cover the margin between double doors to help complete the seal against air and moisture infiltration, with aluminum construction for stability, holding power and durability. Available in a stainable wood-grained vinyl wrap or aluminum.

Astragal

Available with strike plates to receive a latch and deadbolt or multi-point locking system.

Integrated weatherstrip and corner seal pad helps form a tight seal between the astragal and active door when closed.

Spring clips to engage and disengage the shootbolts.

Durable boot engineered to work with the active bottom sweep to complete the seal across the sill.

16-1/2" locking steel slide bolt can be vertically adjusted for a secure fit with the sill and frame.

For dimensional data, see your Therma-Tru seller or visit thermatru.com for a copy of the Therma-Tru Unit & Rough Opening Sizing Booklet.

Therma-Tru_® Door Systems

Independent Laboratory Performance Testing

At the time of manufacture, Therma-Tru exterior door systems (properly assembled with all genuine Therma-Tru components) have been tested under one or more of the following performance specifications: structural load, uniform load deflection, vertical load resistance, air infiltration, water penetration resistance, forced entry resistance, operating forces, force to latch, deglazing resistance, operating cycle performance, impact resistance, sound transmission, thermal performance and solar heat gain performance. Therma-Tru exterior door systems conform to the applicable Performance Standards / Test Methods that may include ANSI/AAMA/NWWDA 101/I.S.2, AAMA/WDMA 101/I.S.2/NAFS, AAMA/WDMA/CSA 101/I.S.2-A440, ASTM E330, ASTM E547, ASTM E283, ASTM E331, ANSI/BHMA A156.2, AAMA 1304, AAMA 920, AAMA 925, ASTM E2068, ASTM F842, ASTM E987, ASTM E1300, ASTM E90, ASTM E413, ASTM E1332, ASTM E1886, ASTM E1996, PA/TAS 201, PA/TAS 202, PA/TAS 203, HUD UM89, AAMA 1702.2, 24 CFR 3280, 24 CFR 3282, NFRC 100 and NFRC 200. Refer to www.thermatru.com for design pressure and other performance ratings.

Doors

Recommended Door Overhang – For best performance, all doors should be protected by an overhang. The recommended size is half the distance from the base of the door to the bottom of the overhang. So, as an example, a distance of 10' for this dimension would require an overhang of 5' minimum. For wetter climates, southern or western exposures, and for double doors, the overhang should be the same as the distance from the base of the door to the bottom of the overhang. In this same example, the dimension is 10' so the overhang should be 10'.

For best performance, double doors to be used in areas with severe weather exposure must be installed using entry alcoves or large soffit overhangs to protect entry unit from exposure. Multi-point locking systems are highly recommended for 8'0" and double door applications.

Doorlites

Doorlites are insulated, and exposed panes are tempered or laminated. Optional wood grilles available for clear doorlites and transoms.

Inserts – All glass (except flush-glazed styles) shall be bedded with glazing mastic and secured in doors with screws. Therma-Tru's SMC and BTS doorlite frames are available for most styles except where noted. SMC and BTS frames shall resist significant deformation by heat up to 200 degrees Fahrenheit, regardless of paint or stain color or placement behind a storm door.

PVC doorlite frames must be finished within 30 days of installation. Failure to do so will increase the chance for product damage of the type that is not covered by the warranty. PVC doorlite frames are not recommended for use behind storm doors or to be painted dark colors, if exposed to direct sunlight.

Decorative Glass & Wrought Iron – Each Therma-Tru decorative glass unit is handcrafted by skilled artisans replicating Old World techniques. Each piece is a unique work of art and many things that would appear to be imperfections (small bubbles, lines and waves within the glass) are normal and are part of the designs character.

Direct Set Sidelites – All Therma-Tru direct set sidelites shall utilize trim components secured and glazed in place in the door jamb.

Condensation occurs naturally in the home, caused by excessive humidity in the air. Often this harmless water vapor can be seen collecting on glass surfaces, such as doorlites. Energy-efficient glass units in Therma-Tru door systems are constructed to keep the glass as warm as possible, reducing condensation build-up. However, there is no such thing as a condensation-free window or doorlite in high-humidity conditions.

A common attribute of true wrought iron doorlites is that a rattle sound may be heard when closing the door. This is solely a function of having real wrought iron which is heavy and has the ability to flex, moving back and forth within a narrow airspace surrounded by glass that has very little flex. This characteristic is not considered a defect or warranty issue.

NOTE: Glass privacy ratings are determined by the 1/2-lite glass size. As a result, the amount of privacy / glass transparency may be more or less than indicated by the privacy rating, based on the glass design and size of the glass that is inserted into the door, sidelite or transom.

Glass designs may differ from depiction due to the size and hand craftsmanship of glass. See your Therma-Tru seller or visit www.thermatru.com for more details.

Components

Adjustable Security Strike Plate – Proprietary adjustable type, permitting in-out adjustment of door in frame, up to 3/16".

Hinges - Minimum hinge size 4" x 4" x .098".

Ball-bearing hinges are recommended for 8'0" doors, doors using heavy lites (e.g., wrought iron), all 20-Minute Fire-rated fiberglass doors, Impact-rated doors and glass, and all Classic Craft doors.

Use of the multi-point locking system is highly recommended for 8'0" and double fiberglass doors. Not recommended for steel doors.

Please be aware that single door units built with public access sills have little resistance to water penetration, and double doors built with these sills have a potential to leak if installed exposed to weather. We recommend that units be installed away from weather under large soffits or overhangs.

Use of a sill pan is recommended.

Fiber-Classic and Smooth-Star dentil shelves are not recommended for placement behind storm doors or to be painted dark colors, if exposed to direct sunlight.

Impact-Rated Products

Impact-rated products must be installed as part of a Therma-Tru door system in compliance with a Therma-Tru product approval. Visit www.thermatru.com for product approvals and full details on WBDR- (Wind-Borne Debris Region) / HVHZ- (High Velocity Hurricane Zone) compliant products. Follow weather and news reports in order to assess severe weather situations and obey local authorities' shelter and evacuation orders. No product guarantees safety for persons or property, nor makes any premises hurricane- or impact-proof.

Fire-Rating Performance Standards

Fire and building codes vary throughout the country and acceptance of products and labels is left to the discretion of the local authorities.

MODIFICATION OF PRODUCTS DESCRIBED IN THIS BROCHURE WHICH CARRY FIRE RATINGS (DOORS AND FRAMES) MAY VOID THE FIRE RATINGS.

Test conducted by Intertek, Warnock-Hersey.

Limited Warranties

Please be aware of the applicable Therma-Tru Limited Warranty which contains important restrictions, disclaimers, exclusions and conditions, as well as the below listed Installation, Finishing & Maintenance documents, related to the Therma-Tru product purchased (e.g., Fiberglass, Steel, Patio Door Systems), all of which can be obtained from your Therma-Tru seller or found in their entirety at www.thermatru.com:

Installation, Finishing & Maintenance

Therma-Tru doors and sidelites come unfinished. Installation, finishing and maintenance must be performed according to Therma-Tru's recommendations to comply with warranty requirements. Obtain a copy of the following documents outlining recommendations from your Therma-Tru seller or find them in their entirety at www.thermatru.com:

- Installation Instructions (Products that are approved for Coastal and / or high wind applications may require special installation. Always follow the installation instructions in the Product Approval for these products.)
- Therma-Tru Fiberglass and Steel Door Systems Recommendations for Proper Finishing and Painting or Staining

NOTE: Finish colors may vary from an actual application due to fluctuations in finishing or the printing of this catalog. See your Therma-Tru seller or visit www.thermatru.com for more details.

Classic Craft.

Tools of the Trade

Check out these helpful resources for dealers, builders and remodelers.

Architectural Home Styles Guide

Get inspired to choose entry doors by design with our interactive guide to popular home styles at thermatru.com/inspiration.

Advancement Center

Learn about Therma-Tru products and programs on our new online training platform at **brainshark.com/thermatru.**

Certified Door System Installation Program

Build your knowledge, skills and confidence with comprehensive door system installer training from Therma-Tru – the expert in fiberglass door systems – and OSI® – the expert in construction sealants. Get started today at **thermatru.com/installer.**

Digital Vault

Explore the Digital Vault to find logos, images, literature and more to help you promote the Therma-Tru products you offer. Create an account today at thermatru.widencollective.com/login.

Trade Professionals Online

Find everything from selling tools and training materials to technical information at thermatru.com/professionals.

Design Your Door

Homeowners can research and design a door with their own personal touch – all from the convenience of home. To get started, visit thermatru.com/design-your-door.

COLLECTION

THERMA TRU

The Veris_™ collection embodies a reconnection between home and outdoors. Sleek, minimalist designs perfectly frame the view. Expansive glass welcomes an abundance of natural light.

Where Home Begins...
