WE MAKE MILLWORK EASY

It all began in 1954 when a long-haul truck driver in Utah named Merrill “Bud” Dame accepted sawmill equipment from a customer who owed him a significant amount of money. With no experience in the wood industry and only a high school education, Bud’s entrepreneurial spirit, resourcefulness, and drive led him to begin producing lumber and mouldings, planting the seeds of what would become Woodgrain: one of the largest millwork operations in the world, with locations all around the United States and Chile.

Today, Woodgrain proudly continues Bud’s legacy by remaining family-owned and operated, while making the highest quality wood building products with an unwavering focus on our customers. Woodgrain continues to grow and leverage its strength of being vertically integrated. Woodgrain consists of five divisions, allowing us to find the most efficient path through the supply chain to meet our partners’ unique needs.

Woodgrain acquired Huttig Building Products in 2022 and Trimco Millwork in 2023, furthering our commitment to offering a broad assortment of the most trusted building materials to our customers, while increasing our value-added services. By combining Woodgrain with Huttig and Trimco Millwork’s history and depth of knowledge, we are on a mission to make building easy by adding value in everything we do and connecting you to the most trusted specialty building products available.

COMPANY STORY

OUR VALUES

INTEGRITY. We hold ourselves to a high moral standard with virtue at our core. This standard continues to be the key driver of our success.

SERVANT LEADERSHIP. We aim to do what's best for our company and the greater good. We are environmental stewards, using and reusing raw materials throughout our product offering.

RESPECT FOR PEOPLE. After 60 years in business, we're proud to be family-owned. We see our employees and customers as part of our family, and believe they should be treated with the same care and attention.

CONTINUOUS IMPROVEMENT. As our company grows, we continuously seek new ways to improve ourselves while delivering quality products. We provide the best selection at the lowest total cost of ownership.

EXCEEDING CUSTOMER EXPECTATIONS. The products we offer and people we serve are diverse, but our commitment to our customers is the same. From homeowners to pet owners to builders, we offer practical solutions that beautify homes. We aim to provide the best experience to every customer, every time.

THE WOODGRAIN DIFFERENCE

It all begins with our vertical integration. What does that mean? It means we own the supply chain, from the forest to your location. We manage the procurement of forest timber and from the processing of lumber to the facilities we use to manufacture final products, we own each step in the process, which ensures complete oversight of the quality of the wood we process. And because we own our trucks and distribution network, we provide our partners with just in time inventory, on time and complete.

It also means that sustainability is at the forefront of everything we do. Our raw material comes from sustainably managed forests. More than 99% of our wood fiber is used in some form—from composites to pellets, our manufacturing process residuals don't go to waste.

At Woodgrain, we are committed to delivering the best value to our customers through constant growth of our people, products, and processes.

FIBERGLASS DOORS

1 FULL-LENGTH COMPOSITE STILES

Our fiberglass doors are equipped with full-length, composite stiles that protect the door from external moisture to prevent warping or rotting. They have twice the screw-holding strength of wood.

2 FLUSH GLAZED

When a door is flush glazed, the glass is built directly into the door. Without the need for a rim, paint or stain can be applied right up to the edge where the door meets the glass. It also adds years of life to the door, because glass rims are susceptible to wear over time. A flush glazed door offers the best of both fiberglass and wood, appearing handcrafted without maintenance.

PRIVACY DOORGLASS

As ODL continues to add a variety of doorglass designs with different types of glass, our customers are asking questions about how we determine our privacy levels. With no industry standard, every manufacturer is free to determine what the opacity or privacy level is for their doorglass. We are leading the way with a standard test using a spectrophotometer to produce an objective number for every glass, every time.

We have eliminated arbitrary numbers and simplified our privacy levels to five categories: none, low, medium, high and maximum. We have created a Privacy Rating scale to visually show this for every doorglass design:

The examples below that show a doorglass design that falls into each one of the five privacy level categories.

DOORGLASS FRAMES

For nearly 80 years, ODL has been manufacturing top-rated doorglass framing systems, and we offer the widest array of doorglass frame styles, colors and materials in the industry to meet specific needs.

INNOVATION

ODL continues to reframe innovation and design with ZEEL®, a sleek, versatile frame that eliminates the need for screws and screw hole covers with an innovative clip system. Resolve® Sealant eliminates messy wet glaze and won't degrade over time.

DESIGN

Whether you choose to highlight a specific architectural style with our Spotlights® line or want the sleek, minimal look of ZEEL, ODL has the right frame to complement your design choice—classic craftsman or contemporary or somewhere inbetween.

PERFORMANCE

Rigorous third-party testing assures that product performance meets design intent. ODL frames are tested to meet and exceed the North American Fenestration Standard (NAFS) for doors, including structural integrity, resistance to water penetration, air leakage and forced entry.

Feature / Benefit	STANDARD White	STANDARD Oak	EVOLVE White	EVOLVE Oak	EVOLVE SDL White/Oak	ZEEL White	CRAFTSMAN White	CRAFTSMAN Oak/Mahogany

WE MAKE YOUR LIFE BETTER®

AVOID COMMON PROBLEMS such as squeeze out, corner flare and yellowing by choosing the right frame for your doorglass. Our excellent customer service team can help you select the frame that's right for your home.
